

Solution Oriented Architecture

Capabilities Statement Castillo Architects

Collaboration

Architecture begins as an idea. We transform your idea through a collaborative process of information, experience, and action. Our collaborations continually increase our knowledge base of large scale projects such as Denver International Airport. We have participated in projects around the Denver Metro Area, throughout the Rocky Mountain Region, and Nationally, with completion of a project in Virginia.

Design

We seek solutions through the design process, by allocating resources that responds to the program and environmental parameters. We are licensed and trained to plan, design, and oversee various construction types with clear documentation and oversight. Our belief is grounded in creating a Regional Architecture as a reinforcement of community identity.

Parcel 6 - Littleton, Colorado

We look forward to discussing your project needs and the architectural services that Castillo Architects can provide your organization.

Agility

Our organization goes to you. Companies, such as Kroger Co and McDonalds USA, rely on our effective and mindful performance which have led to completing of projects in Colorado, Wyoming, Montana and Virginia. We have provided architectural services that require an agility and flexibility in our response to these nationally driven projects.

McDonalds Store 2668 Denver, Colorado
